

Charity projects 2023

Once again, we offer special registrations at an increased price, the difference of which will be destined to three associations:

- the **Südtiroler Sporthilfe** (www.sporthilfe.it) which supports real sporting talents, young people who can not afford to finance their competitions;
- the **Association of Groups of Belluno "Insieme si può"** ("Together we can") a non-profit making organization NPA/NGO (www.365giorni.org) which supports the training and recovery project for children and young people in four corners of the world. The project is illustrated on this page.
- **Dynamo Camp** (www.dynamocamp.org): the project will be illustrated soon on this page.

HUMANITY ON THE WAY

TRAINING AND RECOVERY PROJECT FOR CHILDREN AND YOUNG PEOPLE IN FOUR CORNERS OF THE WORLD.

Project managed by the non profit making organisation NPA/NGO Association Groups "Insieme si può"

The project provides the purchase of books and school materials in **Madagascar** to guarantee a different future for thousands of children, helping them to leave the lives of degradation they lead in the dumps where they are forced to live and die due to the extreme poverty of their families.

Restorative programmes for the prevention of juvenile delinquency and violence and social and labour reintegration projects in three juvenile penitentiary centres in the province of **Buenos Aires** (Argentina) are also financed.

In **South Sudan**, support is given to a project for training, micro-credit, agriculture, work and peaceful coexistence for more than 50 young people born and raised in the midst of bloody conflicts and clashes between different tribes and ethnic groups.

The project also supports 10 teachers for a year's tuition and basic school materials for 100 girls in **Afghanistan**, where girls and women live in conditions of profound exclusion - in social life, in rights, and in particular in the possibility of receiving an education - and where girls aged 12 onwards are banned from education.
